The WLTP Worldwide Harmonised Light Vehicles Test Procedure is used to measure fuel consumption and CO2 figures. The CO2 figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification. This WLTP procedure replaces the European drive cycle NEDC, which was the test procedure used previously. Due to more realistic test conditions, the fuel consumption and CO₂ emissions measured under the WLTP are, in many cases, higher compared to those measured under the NEDC. The fuel consumption and CO₂ emissions figures may vary depending on actual conditions of use and on different factors such as specific equipment, options and format of tires. Please contact your dealer for further information. Please contact your dealer for the latest information. The values do not take into account in particular use and driving conditions, equipment or options and may vary depending on the format of tires. They may vary depending on actual conditions of use and on different factors such as speed, thermal comfort on board the vehicle, driving style, vehicle load and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used. The fuel consumption, CO₂ emissions and range figures may vary depending on actual conditions of use and on different factors such as charging frequency, driving style, speed, specific equipment, options, format of tires, outside temperature and thermal comfort on board the vehicle. 17032020 It utilises the same 177bhp 1.6litre turbo petrol unit as the standard model but switches from two electric motors to just. 16122019 What you'll find is that it's excellently styled, loaded with kit, fantastic to drive and not short on character in the slightest. Safe, secure and reliable, of course, it's a great example of why the British automaker is one of the most popular around in this class, and never seems to disappoint. Roomy inside and nicely versatile, while it's definitely a driver's car, there's appeal for other motorists too. Engines are 1.2 and 1.4 litre petrols, in addition to 1.3 and 1.7 litre diesels. With a sports bodywork kit and no shortage of other upgrades, there's no mistaking what the Vauxhall Corsa SXI is all about. It looks great from the outside, and the cabin is equally as impressive to get into. Set up with performance in mind, it's actually quite roomy and comfortable, and there's even 285 litres of boot space on offer. The excellent kit list includes alloy wheels, a CD stereo, media connectivity, driver assists, airbags electric windows, a phone, sports seats, sports suspension, and more. All the upgrades really do work as this car is exceptional to drive on all types of road. You'll pay 7,000 used.
